PREFACE TO SECOND EDITION

It has been a matter of great pride for me that after about a decade I have been obliged to bring out the second edition of my Pushtu Colloquial.

Things have changed a good deal, we are in the era of advancement and the world is at least fifty years ahead of itself. The time has worked its influence on every created thing. It has taken severe liberties with the languages even. But I am afraid "Pushtu" the little language of the gallant Pathans is immune from its effects to a very great extent. My readers, I believe will experience the same pronunciation and intonation, for Pushtu has not been modernized.

I have done my best to deal with the colloquial part of the language, and earnestly hope, with due apologies to my those brethren in profession who have taken great pains in producing big volumes, that this little book will prove itself to be of great use to the foreigners, travellers or tourists, civilians or military officers and will make for them the conversation in the language, easy and desirable.

MUNSHI FEROZE DIN,

Lahore.

CONTENTS

Preliminary Dialogues.
