PREFACE

Non-Russian accounts of Soviet Central Asia, earlier known as Russian or Western Turkestan, need no longer be prefaced by explanation of the location and nature of that land and of the racial and cultural makeup of its people. Tashkent, Alma-Ata and several other cities of the region are open to foreign visitors. Scholars throughout the world are more or less conversant with the region's history, geography, changing economic and cultural patterns, and role within the USSR.

In spite of this progress, however, great gaps remain in our knowledge of Soviet Central Asia, past and present, and study of it in countries outside the USSR remains haphazard and, on the whole, weakly developed.

This bibliography has been compiled as an aid to research in the history of Soviet Central Asia. It is not a finished effort, but preliminary to a more comprehensive list to be issued at a later date. Meanwhile, it is hoped that the present list may be of interim aid to other researchers. Suggestions regarding format and additional materials will be welcomed.

Inasmuch as no single scholar is likely to be concerned with the entire span of four hundred years, I have divided this list into three parts, each of which may be used independently. The first extends from 1558, when the British trade emissary Jenkinson gathered and brought back to Muscovy the first reliable information about Central Asia, to 1866, the end of the initial period of exploration and conquest. The second concerns the period 1867 to 1917, during which the region was conquered and placed under stable administration. This is a revision and enlargement of *RUSSIAN CENTRAL ASIA, 1867-1917: A SELECTED BIBLIOGRAPHY*, issued by the Institute of Slavic Studies, University of California, Berkeley, in 1953, and long unavailable. The third part concerns the Soviet period, from 1917 to the present.

Most of the works listed may be found in the several large U.S. or European collections of Russian material. I have specified the locations of certain books, particularly ones which are relatively rare. This does not, of course, preclude the book being found elsewhere. In any case, rarity is no longer the problem it once was, as various aids (e.g., in the U.S., the *UNION LIST OF SERIALS*, the printed catalogs of the Library of Congress and the New York Public Library Slavonic collection, and microcards of the Library of Congress Cyrillic Union Catalog) usually enable location of a book. In the case of items which are not available outside the USSR, improved relations now make it possible for foreign scholars to consult desired materials there, or to obtain microfilm copies.

Relatively few items are annotated. Effort has been made to include only worthwhile materials, so qualitative judgements would be redundant. Content and extent of material may usually be noted

from titles and the number of pages.

Part II is similar in scope to the bibliography issued in 1953, but has been considerably enlarged, with various revisions. The sections on the Russian Conquest, Economic Developments, and Culture have been rearranged and subdivided. Description and Travel items have been arranged chronologically. The sections on Geography, Native Law, and the Revolts of 1916 have been reduced; specialized works cited in those sections will provide additional titles. I have added sections on the Revolutionary Movement, and on Native Uprisings. As before, I have not attempted to deal with the lands bordering Russian Central Asia, nor with the century-long rivalry between Russia and England over influence in those regions. However, some of the works listed here contain abundant bibliography concerning these matters.

I wish to thank Mrs. Eileen M. Crean and Mr. Melvin Kessler for sharing with me titles gathered in the course of their own research.

An exceptionally rare and valuable collection of photographs made by order of Gen. Kaufman, designed to show the main aspects of Russia's new and as yet little known Central Asiatic possessions. In 4 parts: Chast' istoricheskaja. Ocherk dvizhenia russkikh v Sredniuu Aziiu. Compiled by M. A. Terent'ev. 79 p., maps. Chast' promyslovaia. Promyslov u Sredneaziatsev. Compiled by A. L. Kun and M. I. Brodovskii. 45 p. Chast' arkeologicheskaja. Materialy dlia arkeologicheskago opisanija drevnikh pamiatnikov Syr-Dar'inskoj oblasti i Zeravshanskago okruga. Compiled by A. L. Kun and N. V. Bogaevskii. 2 v. I: 7 p.; II: p. 77-154. Chast' etnograficheskaja. Etnograficheskaia zametki. Compiled by A. L. Kun. 2 v. I: 7 p.; II: p. 82-163. According to IST. VESTNIK, 1899, v. 76, p. 96, only 6 copies of this set were made. Kaufman presented 5, respectively, to the Emperor Alexander II, to his heir the future Alexander III, to the Academy of Sciences, to the Imperial Public Library; and to the Russian Geographical Society. One of these sets is now in the Library of Congress. Supplementary volumes of explanatory material were planned, but only one was completed. (See #136)
