PREFACE.

BY a Resolution of the Council of the Royal Geographical Society, March 20th, 1878, Mr. JAMES FERGUSSON, F.R.S., Mr. CLEMENTS R. MARKHAM, C.B., F.R.S., and Mr. MAJOR, F.S.A., were requested to act as a Special Committee to consider the subject of the preparation of the Catalogue of Maps, in consultation with the Map Curator, and the present Catalogue has been wholly prepared in the Society's Map Room, in accordance with instructions given by the Committee at their Meeting, June 3rd, 1878.

The Catalogue has been arranged Geographically and Alphabetically, it contains (with the exceptions mentioned below) all the Maps in the Society's collection on March 31st, 1881.

The division of the Globe into land and water has been followed in the usual manner: viz., the *land* under the Continents of Europe, Asia, Africa, America, and Oceania; the *water* under that of Oceans, viz., Atlantic, Pacific, and Indian Oceans.

The Maps and Charts, of the Ordnance Survey, British Admiralty, French *Dépôt des Cartes et Plans de la Marine*, and the Indian Government Surveys, do not appear in this Catalogue, as it has been found better, with this class of publication, to adhere to the arrangement and catalogues of the several Departments by which they are issued.

The general arrangement of the Maps is shown in the Table of Contents.

JOHN COLES,

Map Curator.
