[Photo Album] Kashmir Shooting Trip Aug.-Sept. 1925. [title inked inside front cover]. 37 photos inserted two to a page in photo windows on both side of album leaves. 14 x 8cm. High quality amateur photos with very good detail. Negative inserted under most photos. There is also a negative for which there is no photo. Brown cloth album. 26 x 20cm. 2 1/2 empty leaves at end. Brief inked caption on edge of photo window for every photo. It is unclear who made up the shooting party but at least some were women. Four photos with a trophy (3 with an ibex and one of a Hangul). No other hunting photos. The first photos are of Gurais and the Kishanganga River, thence to a camp at Chota Deosai, then San Saeri Pass on the way to Dposai Plateau, Camp II in Hushe Nuplah, Camp III in Hushe Nullah, Hushe Valley and a view of Musherbroom (Masherbrum or K1), Zogi La Pass, and finally passing through Attock Bridge (in a car). We don't vouch for the spelling of all of these places but we did find reference to most. There are several photos of members of the group but no group shot.
